SUMMARY

- Senior manager with hands-on Agentic-AI development experience. Directs a team of 10 members across multiple concurrent programs, proactively forecasting requirements to accelerate stakeholder alignment and managing resource allocation. Spearheads end-to-end technical operations for SaaS B2B platform working simultaneously with Product Team and Operations Team.

SKILLS

- **Languages:** Python, SQL, Bash
- **Frameworks:** Django, FastAPI, LangGraph
- **Tools:** Git/Github, PostgreSQL, SQLite
- **Platforms:** Linux, AWS
- **Soft Skills:** Project Management, Cross-functional Collaboration, Stakeholder Management

EXPERIENCE

- **Senior Project Manager** Hyderabad, In
NxtWave Technologies (Series A \$33M) Apr 2026 - Present
 - **Retrieval-Augmented Generation:** Built a RAG application to generate new questions, which ensures no repeat content is ever prepared. Technologies used: Python, Pandas, ChromaDB, OpenAI API
- **Project Manager** Hyderabad, In
NxtWave Technologies (Series A \$33M) Apr 2023 - Mar 2026
 - **Cross-functional collaboration:** Stood as a common point of contact for 5 teams ranging from Product Team with Software Developers to Sales and Marketing team with CRMs.
 - **Scaling:** Scaled the academic content for assessments by 23x. Optimised the workflows in iterations and handled requirements in technical content across wide spectrum ranging from problem solving to ReactJS Coding.
 - **Team Management:** Built the team from scratch, to a peak of 20 members. Handled the entire hiring cycle and onboarded them. Directed their day-to-day tasks and planned effort distribution based on task priorities.
 - **SaaS B2B:** Managed the SaaS platform's technical operations across more than 5 service lines. Led requirement-scoping sessions with SDE-3 engineers and managed end-to-end delivery timelines for high-priority features.
- **Content Manager & Aptitude Trainer** Hyderabad, In
NxtWave Technologies (Series A \$33M) Jan 2023 - Mar 2023
 - **Packaging:** Prepared and packaged quantitative aptitude content for various hiring exams, including the TCS NQT
 - **Teaching:** Initially joined as aptitude trainer teaching quantitative aptitude content to students and preparing them for hiring drives.
- **Systems Engineer** Bhubaneswar, In
Infosys Limited Mar 2019 - Sep 2020
 - **Agile/Scrum:** Contributed to two separate client projects as part of Agile/Scrum teams — participated in sprint planning, worked assigned story points, and completed feature delivery tasks within sprint cadences.
 - **Junior Engineer:** Authored knowledge-transfer documentation for 15+ modules, cutting new-joiner onboarding time by 30% and establishing the documentation standard adopted across the project.
- **Systems Engineer Trainee** Mysore, In
Infosys Limited Sep 2018 - Feb 2019
 - **Training:** Completed rigorous training in Python, SQL, Java and Spring Boot Microservices framework and qualified in top percentile.
 - **Project:** Built an end-to-end e-commerce platform with Spring framework.

PROJECTS

- **RAG Agent:** Built a RAG agent which sweeps through database of existing content before proceeding to generate new content related to a specific topic. Technologies used: ChromaDB, OpenAI API, Elasticsearch, Embeddings (May'26)

CERTIFICATIONS

- **Hugging Face:** AI Agents Fundamentals Certification (June 2026)

EDUCATION

- **MVGR College of Engineering** Andhra Pradesh
BTech - Mechanical Engineering; Grade: First Class with Distinction Sept 2014 - July 2018
